

Guide Ratio	3	0.75	2nd Ascender
	2	0.75	1st Ascender
		1	Waistline Header
	3	0.75	Lowercase Space (X)
		0.75	1st Descender
		0.75	2nd Descender

Copperplate

55° Slant Line

Guideline Assistant

- 1) Find the guide size that will best suit your project.
- 2) Mark the five line ends as dots on a scrap bit of card.
- 3) Transfer those to the left and right of your project.
- 4) Lightly pencil rule guidelines in between left and right dots for an easy way to setup guidelines on the project.
- 5) Optionally note the slant line offset and add some.
